STRATEGIC ACCOUNTS OVERVIEW

Strategic Account Management

Strategic account management is a key function to any organisation where the goal is a recurring revenue model built on long-term relationships.

In large accounts or in the case of a major customer, there needs to be more than a traditional sales relationship.

Salestrong's view is that this is a team effort and requires the full support of the business to ensure that good relationships are at the heart of successful Strategic Account Management.

Steve Moore National Sales Director

"Monthly Self Generated sales jumped up by unprecedented levels after the first round of Sales Academy courses – this stuff really works!" "Inspirational training which gives every seller the tools to increase their own sales, increase their own commission"

Michael Millard Regional Sales Director

"The sales training delivered has been excellent. This has resulted in a complete shift in focus, away from talking about themselves towards something truly understanding the customers needs. The learning has been further supported by the follow-up coaching support."
